

Sinclair Broadcasting is forcing their stations to air a anti-Kerry documentary right before the election shows the danger of media consolidation. This documentary has nothing to do with news. When companies get so large that they can do what ever they like. I though the F.C.C is suppose to control them. The F.C.C. doesn't seem to have any power to control large companies. Aren't the air waves suppose to serve the public interest not Sinclair and the Republican Party? who is running the F.C.C, Sinclair Broadcasting???? The F.C.C. needs to strengthen media ownership rules. They need to look at how they renew licenses when companies abuse the public interest.....Thank You.....Sincerely
Bill Littorno
